

"If he is ashamed to tell you he ought not to be out making speeches. When a man goes to another man's meeting and asks a question, he ought to be man enough to tell who he is."

"What's that got to do with it? You cannot answer. Why does not your platform answer the unemployed proposition?"

"My friends, give me your attention," said Mr. Bryan. "He wants to know about the unemployed problem. I believe that the unemployed problem is due to the fact that there is an unfair distribution of the wealth created, and when we try to remedy the evil that man has to elect a Republican to keep this unemployed problem before the country."

The crowd wildly cheered a burly man trying to haul the disturber out of the crowd.

Continuing, Mr. Bryan said: "My platform mentions remedies, and it mentions all the remedies that are within right. We say elect Senators by the people and let the Senators be responsive to the will of the people. We say destroy the trusts and open the door of opportunity and give the young men of this country a chance. We say take the extortion out of the price that the trusts have put into it and the people can buy more goods and there will be a chance for more people to be employed in the market of the goods that the people can buy. We say lessen the expenses of government and leave money in the pockets of the people. We say lower the tariff and take the burdens off the consumers. We say protect the savings of the people in the banks. These are some of the methods we have of giving employment to the unemployed."

SEES NO POINT

Mr. Parry Explains Letters Read by W. R. Hearst in Brooklyn.

INDIANAPOLIS, Ind., October 30.—D. M. Parry, formerly president of the National Association of Manufacturers, said last night in connection with the letters read by Mr. Hearst in New York, said to have been written by Myron D. King to his former secretary, John Maxwell, and himself, that he did not know whether these letters were written by Mr. King or not. He added: "But, even if the letters were written by Mr. King, I fail to see the point Mr. Hearst makes. Myron D. King and John Maxwell were employed by me to help me in the work of building up the National Association of Manufacturers, because I believed they would make efficient employees."

"Mr. King was employed by me to act as a lobbyist in connection with labor bills. After he had done that Mr. King had no further interest in the issues."

"It is only natural that he should congratulate me on my re-election to the presidency of the association at Atlanta after I had been attacked by skulking foes, who struck at me in the rear, a great deal after Mr. Hearst's methods."

"Mr. King has been a Democrat all his life, and by profession an ardent Democrat. I imagine he has been twice instructed by Democratic national committees with important work in the auditing department because of his inheritance of honesty and ability, not because he has any view of labor matters. While I have been a Republican all my life, I believe in fair play, and in justice to Mr. King and the Democratic National Committee, I am compelled to believe that Mr. Hearst is engaged in a childish sort of performance in this particular matter."

MAKES BIG CLAIM

Chairman Hittcock Claims Nearly Everything for Republican Candidate.

NEW YORK, October 30.—In his forecast of the composition of the electoral college, which will choose the next President and Vice-President of the United States, Mr. Hittcock, National Chairman Hittcock claims 325 Republican members, or 53 more votes than will be required to elect their candidates.

For the Republican ticket, Mr. Hittcock is sure of New York, Ohio and Indiana. He includes in the Republican column, Nebraska, Montana, Maryland and Nevada. Mr. Hittcock said he believed that the chances were even in Kentucky and Missouri. If by any chance any of the States claimed should go Democratic he said they would be Maryland, Montana and Nevada with a total of fourteen votes. This would leave a Republican margin of sixty-nine. The national chairman conceded that the chances in Tennessee

For Her Children—Little Girls Suffered with Itching Eczema Which Simply Covered Back of Head—Baby Had a Tender Skin, Too.

ALL PROMPTLY CURED BY "WONDERFUL OINTMENT"

"Some years ago my three little girls had a very bad form of eczema. Itching eruptions formed on the backs of their heads, which were simply covered. Before I heard of Cuticura, I used everything, but they failed. Then my mother recommended Cuticura. I used Cuticura Soap and Cuticura Ointment, and the trouble had disappeared. I am using the Cuticura Remedies yet whenever any of my family have any skin trouble I can never recommend Cuticura sufficiently; it is indispensable in every home. I cannot find its equal. CARTER GLASS AT WYTHEVILLE.

Delivers Speech of Great Power in Aid of Bryan, Democratic Candidate.

WYTHEVILLE, Va., October 30.—Hon. Carter Glass and Cloyd Byars, Democratic nominee for Congress from this district, spoke at the Opera House last evening. Though the weather was very inclement, there was a good audience. Mr. Byars occupied but a few minutes, leaving full time to Mr. Glass, who kept his audience in full touch and interest for more than an hour and a half in a speech which covered the issues more fully than any delivered during the canvass. The Democratic ticket will win and will poll the full vote on election day.

Workmen Leaving Samos.

WASHINGTON, October 30.—Many workmen are planning to leave the Island of Samos, forty-three miles southwest from Smyrna, because of the introduction of machines for cigarette production, which permits a daily output of 100,000 cigarettes. The exports in cigarettes from Samos Island amount to 50,000,000, England, Germany, India and the Transvaal being large buyers. The wages average 35 cents for every thousand cigarettes rolled. Wine is also a great source of wealth there.

General Consul Harris points out that Samos is a vassal of Turkey, and pays to the sultan state a nominal annual tribute, which the sultan gives back to the people of the island to build and repair the much needed roads.

BOARD OF SAFETY SUSPAINED BECK

Blair and Kramer Refused Permit to Alter Structure on Broad Street.

In a written opinion given out yesterday by Mayor Richardson, as chairman, the Board of Public Safety sustained the action of Building Inspector H. P. Beck, in the appeal of Albert Kramer and others from the action of the Building Inspector in refusing a permit for certain alterations and repairs to a house, No. 201 East Broad Street, held to be in an unsafe condition by reason of the bulging on one wall.

The opinion reviews the evidence taken in three days of public hearings and two inspections of the premises by the board, and holds that the Building Inspector should have acted more promptly, being required to approve or reject plans within ten days, and, on the other hand, that the applicant for the permit violated the law in proceeding to do the work before the permit had been issued, and that such work was at his own risk.

Says Building Was Moved.

The history of the building is reviewed at length with its various occupations, uses and repairs. In summing up the situation, the board holds that there can be no doubt that the whole building has moved westwardly, and that there are several indications that the movement has been recent. As to the main question of the present safety of the building, on which there was much conflict of testimony, the opinion, in which the three members of the board concur, says:

"The opinion of a reasonable doubt as to the safety of the building, we think the public should have the benefit of that doubt, and upon this ground alone we would feel constrained to sustain the Building Inspector; but after our personal inspection and hearing the testimony of all of the witnesses, we are unanimously of the opinion that, although this wall might possibly remain in its present condition for some time, it is unsafe, and that this western wall should be pulled down and rebuilt."

"We, therefore, sustain the Building Inspector in his action in rejecting the permit of the applicant to repair the building according to the specifications submitted."

TAFT OR BRYAN?

You will have to decide it for yourself next Tuesday. The popular verdict on the question of the best breakfast cereal made in this country was long ago decided in favor of

SHREDDED WHEAT

The next President will be in favor of Shredded Wheat because both Taft and Bryan are pledged to the enforcement of the National Pure Food Law. Shredded Wheat is the purest, cleanest, most nutritious cereal made. It contains more actual body-building material than meat or eggs or starchy vegetables, is much more easily digested and costs much less.

Investigating Seizure.

LONDON, October 30.—It was declared at the foreign office that the sending of the squadron to the Atlantic coast of South America was in no way connected with the present Venezuelan situation. The government has not heard from Sir Vincent Corbett, the British minister to Venezuela, since it sent him instructions to investigate the seizure of the schooner Lady Kensington off the island of Margarita and the imprisonment of the vessel's crew.

Japanese Like Beans.

WASHINGTON, October 30.—Beans and bean cake are popular in New Chang, says Consul Heenan, of that port, in a report pointing out a fair trade in American manufactures in Manchuria. All the bean cake exported goes to Japan. During the winter a constant stream of mules and carts brings the beans to New Chang, as many as 1,000 carts coming in daily. "Poor or crippled mules and horses," he says, "are rarely seen." The report says that New Chang is improving every year, and that a Chinese movement is in progress for the further deepening of the River Liao, so as to make it navigable at all times during the season for the large boats, which usually ply on its course. The consul predicts that the harvest of 1908 will be the largest in the history of Manchuria.

News of the Southside

Manchester Bureau, Times-Dispatch, No. 1105 Hull Street.

While annexation was not discussed at the meeting of the Manchester and Chesterfield Business Men's Association last night, Mr. James Bellwood made a strong plea in favor of the movement, urging members to use their influence to bring about the consolidation of the two cities.

President Toney announced the committee to look into the annexation question, with a committee from the Richmond Chamber of Commerce as previously published. Some members suggested that the joint committee should meet in Manchester.

Since the association has rented Fraternal Hall for every Friday night, the association suggested that the association change the regular meeting night from the first Tuesday night to the second Friday night. The suggestion was adopted by Mr. D. L. Pulliam at the last meeting, appropriating \$100 for expenses incidental to the Mayo Bridge test case caused by a debate of some length as to whether the attorney's fees should come out of this amount. It was decided to hold the next meeting on Friday, November 6th, at 8 o'clock.

The report of the joint committee from the Board of Aldermen, the City Council and the Business Men's Association on the new post-office building was presented.

The following new members were elected: J. A. King, George W. Reams, R. E. Vaden, J. P. Caison, W. W. La Prade, F. O. Messinger and F. B. Dunford.

The petition in quo warranto proceedings filed a few days ago in the Corporation Court to test the validity of the act of the General Assembly giving Manchester city and the Manchester and Richmond Free Bridge Company the right to acquire title to or to parallel Mayo's Bridge, was argued before Judge Clifton yesterday morning by Attorneys Charles Page and J. A. King. The court sustained the demurrer, thereby holding the act to be valid and constitutional. Judge Clifton handing down the following opinion:

"In the Corporation Court, City of Manchester, Commonwealth of Virginia, ex rel. etc., etc., Manchester and Richmond Free Bridge Company and the city of Manchester, Au. side.

"This day came again the parties by their attorneys, and the court having duly considered the various questions of law arising out of the demurrer entered by the defendant, is of the opinion as follows:

"First—That the Manchester and Richmond Free Bridge Company was, under the terms of the original act of the General Assembly of April 2, 1902, designated a public corporation, municipal in its character, and that the General Assembly thereafter, by its act of March 12 of the Constitution, to pass amendments to the act of March 2, 1902, and the act of March 5, 1908, is not an act in relation to the government of the city of Manchester, within the intent and meaning of section 127 of the Constitution.

"Second—That said act of March 5, 1908, is not an act in relation to the government of the city of Manchester, within the intent and meaning of section 127 of the Constitution.

"Third—That the bonds of the Manchester and Richmond Free Bridge Company, if guaranteed by the city of Manchester under the aforesaid original and amended acts, will not constitute a debt of the city of Manchester, within the intent and meaning of section 127 of the Constitution.

"Wherefore, it is considered, adjudged and ordered that said demurrer be sustained; that leave be left the defendant to file a bill of particulars, and that the petition of relators be, and that the same is hereby, dismissed with costs."

A program consisting of essays, recitations and a debate was rendered yesterday afternoon at the meeting of the Manchester High School Debating Society, conducted in the assembly hall. The judges of the debate, the members of the debating society, and the members of the white man against the red man are greater than the crimes of the red man against the white," decided in favor of the affirmative.

Workings of a Press Clipping Bureau.

It has come to be a necessity that any one whose name ever appears in a newspaper must be a subscriber to press clippings, still there are few who understand anything about the workings of such a bureau. People take press clippings because it is a new way of working, learn how many papers throughout the country print stories concerning them. They must have a bureau to read every paper published. Then every line concerning them reaches their hands.

There are some forty press clipping bureaus in the United States, but before becoming a subscriber one should understand just what bureau to deal with. This is necessary, because in order to read 5,000 different publications a bureau must have a large area of working space and employ many people. Some bureaus work in one room with three and four workers. The largest bureau in the world, that is the Burdette Press Clipping Bureau in New York, reads every publication issued, has 2,000 square feet of space, and has 100 workers.

There are dozens of departments in the Burdette Bureau, but the one spectacular feature is the work of those who actually read the papers. These readers sit before an inclined desk on which the paper rests. The reader scans the column, her hand following the lines with lightning-like rapidity. The moment she sees the name of a client, down goes the pencil and a mark is put under the name. "A marvelous part is, that the reader must bear in mind something like 60,000 names. It is a feat of memory that almost passes human understanding, and it is done day in and day out. The reader's mind is kept active on these subjects in a daily school of instruction. For an hour each day the readers sit silently before their desks while a forewoman takes up a list of customers, and one by one calls off the names and explains their wants. It takes ten days, an hour each day, to complete the list. On the eleventh day the forewoman begins over again. So the routine goes on, week in and week out.

Any one who hasn't a press clipping bureau or any one who hasn't the largest in the world, should write a note addressed simply "Burdette, New York City," which will put them in immediate touch with every paper published.
